

As we strive to keep our hospital open in order to care for sick and/or injured patients, we are acutely aware of the health risks, both for you and for our team of healthcare professionals. In some cases, going out cannot be avoided. But when there is a choice, you should choose to stay at home. Therefore, for the safety and well-being of our entire community, we are temporarily enacting some additional protocols.

Due to a staffing shortage caused by self-imposed decisions of some team members to stay at home, we are reducing our weekday hours of operation. Beginning on March 30, our hospital will be open from 8 a.m. to 6 p.m., Monday through Friday. Our Saturday hours will remain the same: 8 a.m. to 2 p.m.

In addition, we are suspending all routine wellness visits and grooming services. If you are scheduled for a wellness visit, one of our team members will be calling you to reschedule.

We want to make it clear that no one here has knowingly been exposed to the virus; no one here is under quarantine.

If you are experiencing any symptoms of illness, please stay home and take care of yourself. If your pet has a recurring issue or you have a question concerning your pet, call us. One of our doctors may be able to advise you over the telephone.

These are trying times for all of us. We want to do our best to be here for you if you really need us, but we want to avoid visits that can wait until this crisis is behind us. As always, we appreciate your understanding and support.
